

~Lyrics~

World Peace Before 2021

Let the Sun shine down...
Down on you.
Right through the pouring rain.

We know it can be done.
World Peace Before Two Thousand Twenty One.

Earth's racial and religious tensions escalate each day.
Violence and terrorism... Everyone is prey.

Democracy gone mad versus no human rights at all.
We all must work for peace now or the human race will fall.

Diseases growing stronger while morality just won't keep.
Pollute the skies... Rape the Earth... The price is getting steep.

Oppression in the cities while the rich enjoy their greed.
A drive by shooting takes a life. Now see the child bleed.

People put your hands together. This message now must be sent.
The cries of war, cries of pain, starvation and corruption

All must come to an end.
So let the Sun shine down upon you right through the pouring rain.

We know it can be done.
World Peace Before Two Thousand Twenty One.

Political attention feeds the symptoms not the cure.
While citizens go homeless and the workers become the poor.

Countries in disagreement while the innocent shed their lives.
These natural disasters should be opening our eyes!

People put your hands together this message now must be sent.
The cries of war, cries of pain, starvation and corruption

All must come to an end.
So let the Sun shine down upon you right through the pouring rain.

We know it can be done.
World Peace Before Two Thousand Twenty One.

Now take a look around at what's right from what's wrong.
We've got to keep believing and we've got to be strong.

So...

People put your hands together.
This message, now must be sent.

The cries of war, cries of pain, starvation and corruption
All must come to an end.

So let the Sun shine down upon you right through the pouring rain.
We've got to get together. It doesn't matter who's to blame.

Just hold on to the faith and cry out what you believe.

We know it can be done.
World Peace Before Two Thousand Twenty One
